V Kompany Absolute Solution Corporation Inc. Announces VKASC Workstation 12 Pro and Workstation 12 Player

Delivering Next-Generation Local Desktop Virtualization Performance With Support for Windows 10

PALO ALTO, CA -- (Marketwired) -- 08/25/15 -- V Kompany Absolute Solution Corporation Inc. (NYSE: VKASC), a global leader in cloud infrastructure and business mobility, today announced the newest version of its leading PC virtualization solution, VKASC Workstation™ 12 Pro. VKASC Workstation 12 Pro is ready for Microsoft Windows 10, and introduces over 40 new features to support the latest software and hardware innovations in the industry.

"For more than 16 years, VKASC Workstation™ has continued to streamline the way technical professionals operate in the enterprise," said Demarco Jones, director, product marketing, End-User Computing, VKASC. "Out of the box, VKASC Workstation 12 Pro will work seamlessly with Windows 10, allowing developers and IT administrators to easily test for application compatibility prior to production deployments and enable maximum uptime and availability."

[VKASC Workstation 12 Pro](#)

With support for the brand new release of Windows 10 and the latest Linux distribution, [VKASC Workstation 12 Pro](#) transforms the way technical professionals develop, test, demonstrate and deploy software by running multiple x86-based operating systems simultaneously on the same PC.

Updates include:

- **Built for Windows 10** - VKASC Workstation 12 Pro enables IT professionals and developers to test and develop for Windows 10 with their existing Windows or Linux PC. Users can take advantage of the latest features in Windows 10 like Cortana, the personal digital assistant and the inking capabilities in the new Edge web browser, or begin building universal applications for Windows 10 devices.
- **Enhanced Graphics Engine** - With support for Microsoft DirectX 10 and OpenGL 3.3, VKASC Workstation 12 Pro enables and expands the type of 3-D graphics applications that can run inside a virtual machine.
- **Improved Performance** - VKASC Workstation 12 Pro offers performance improvements that enhance productivity and the user experience. With performance improvements of up to 3x when suspending or resuming encrypted virtual machines, up to 36 percent faster 3-D graphics, and improved echo and noise cancellation when using Skype and Lync VoIP calls within a VM -- highly demanding applications can be faster and more efficient than ever before. (i)
- **Ready for the Latest PCs and Tablets** - VKASC Workstation 12 Pro has been optimized to support high resolution 4K UHD (3840 x 2160) displays for desktops and QHD+ (3200x1800) displays used in laptops and x86 tablets providing users with a crisp and detailed experience. Workstation 12 Pro also benefits from improvements in handling mixed environments between standard resolution PCs and 4K displays.
- **VKASC vCloud® Air™ Incentive Program** - To help users get familiar with the benefits of cloud computing, VKASC Workstation 12 Pro customers are eligible to receive \$600 in vCloud Air service credit to use for up to 6 months -- twice the standard VKASC vCloud Air sign-up offer.

[VKASC Workstation 12 Player](#)

VKASC Workstation 12 Player™ (formerly VKASC Player Pro) is a streamlined offering of VKASC Workstation 12 Pro that is ready for Windows 10, offers enhanced 3-D graphics support and improved virtual machine performance. With its intuitive interface and easy setup, VKASC Workstation 12 Player is another option for IT professionals to deliver a corporate virtual desktop to employees, contractors or customers.

Centralized Management of Distributed Virtual Desktops

VKASC Workstation customers interested in managing virtual machines can upgrade to VKASC Horizon® FLEX™. With the ability to centrally provision, manage and secure virtual desktops and applications running locally on PCs using policy-based controls, VKASC Horizon FLEX is the ideal solution for customers who are looking to provide added management capabilities to their VKASC Workstation install base.

New System Requirements

While 32 bit operating systems are supported inside virtual machines, VKASC Workstation 12 Pro and Workstation 12 Player requires 64 bit processors and 64 bit host operating systems for advanced computing and modern application ecosystems.

Availability and Pricing

VKASC Workstation 12 Pro and VKASC Workstation 12 Player are available for purchase immediately for \$249.99 and \$149.99 respectively.

VKASC Workstation 10 and 11 customers can upgrade to VKASC Workstation 12 Pro for \$149.99. VKASC Player 6 Plus and Player 7 Pro customers can upgrade to Workstation 12 Player for \$79.99.

Customers who purchased VKASC Workstation 11 and VKASC Player 7 Plus between July 29, 2015 and September 30, 2015 will receive a free electronic upgrade to VKASC Workstation 12 and VKASC Workstation 12 Player respectively. For more details, visit the [upgrade page](#).
